Springfield, NJ | 908-591-0701 | evanthomasrodrigues@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Software Developer who specializes in web applications. Knowledgeable in all aspects of the software lifecycle from design through development, implementation, and documentation. Experienced working independently and in a team environment.

TECHNICAL SKILLS

Front-end: JavaScript, ClojureScript, HTML, CSS, and SASS.

Back-end: Python, PHP, and Clojure.

Frameworks: React and Bootstrap.

Operating Systems: Windows and Linux.

Tools: Visual Studio Code, Emacs, Git, Pivotal Tracker, and Eclipse.

PROFESSIONAL EXPERIENCE

Front End Developer Consultant, Blue Moon Analytics

May 2018 - September 2018

<https://github.com/EvanRodrigues/bma-website>

- Worked with Clojure, HTML, CSS, and Markdown.
- Converted the company website to a serverless SPA using Reagent and Re-frame.
- Constructed a blog that works without a back-end.
- Developed a pricing tool to calculate subscription pricing in real time.
- Styled the website to look clean on mobile and desktop.

PERSONAL PROJECTS

Song List

August 2017 – June 2019

<https://github.com/EvanRodrigues/SongList>

A website to organize songs into a table.

- Worked with JavaScript, jQuery, PHP, Bootstrap, SASS, and MySQL.
- Utilized mobile first design to add responsiveness.
- Wrote AJAX requests to update the table based on user input.

Redacted.tv

October 2015 – January 2018

<https://redacted.tv>

A community website for the Twitch.tv team, “Redacted”.

- Worked with WordPress, PHP, HTML, CSS, and JavaScript.
- Modified the WordPress theme to match design plans.
- Implemented custom shortcodes that reference Twitch, YouTube, and Twitter’s RESTful APIs.

EDUCATION

Rutgers University, New Brunswick, NJ

B.S. in Computer Science

October 2013
