EXPERIENCE

Front End Developer Consultant, Blue Moon Analytics

May 2018 - September 2018

Converted and developed new features for the company website.

- Worked with Clojure, HTML, CSS, and Markdown.
- Converted the previous iteration of the company website to a serverless SPA using re-frame.
- Constructed a blog that is generated using Markdown files.
- Developed a pricing tool to calculate subscription pricing in real time.
- Styled the website to look clean on mobile and desktop.

Web Developer, Personal Project

February 2019 - Present

Currently developing a website to review movies and video games.

- Working with Clojure, HTML, CSS, and Postgres.
- Designed a relational database to store reviews and user information.
- Utilized Buddy to authorize users and secure data.

Web Developer, Redacted.tv

October 2015 – January 2018

Built a community website for the Twitch.tv team, “Redacted”.

- Worked with WordPress, PHP, HTML, CSS, and JavaScript.
- Coordinated with team members to design web pages.
- Modified the WordPress theme to match design plans.
- Implemented custom shortcodes that reference Twitch, YouTube, and Twitter’s RESTful APIs.
