PROFESSIONAL EXPERIENCE

Front End Developer Consultant, Blue Moon Analytics   May 2018 - September 2018
Converted and developed new features for the company website.
- Worked with Clojure, HTML, CSS, and Markdown.
- Converted the company website to a serverless SPA using Reagent and Re-frame.
- Constructed a blog that works without a back-end.
- Developed a pricing tool to calculate subscription pricing in real time.
- Styled the website to look clean on mobile and desktop.

PERSONAL PROJECTS

Web Developer, SongList   August 2017 - Present
Developed a website to organize songs into a table.
- Worked with JavaScript, jQuery, PHP, Bootstrap, SASS, and MySQL.
- Utilized mobile first design to add responsiveness.
- Wrote AJAX requests to update the table based on user input.

Web Developer, Redacted.tv   October 2015 – January 2018
Built a community website for the Twitch.tv team, "Redacted".
- Worked with WordPress, PHP, HTML, CSS, and JavaScript.
- Modified the WordPress theme to match design plans.
- Implemented custom shortcodes that reference Twitch, YouTube, and Twitter's RESTful APIs.
